Using Noodle Tools

- Visit noodletools.com
- Click **LOGIN** on the top right corner. Login with your school GMail account.
- Create a new project by clicking the + New Project button in the top right corner. Create a title and select **MLA** as your citation style and **starter** as your citation level.
- As you gather your resources you may copy and paste the citations directly into Noodle Tools. Click NEW SOURCE, identify where the information came from, fill in the blank spaces with as much of the information that you can find and click SAVE.
  - If your source came with a preformatted citation, you may select QUICK CITE at the top of the source page to copy and paste.
- Once ALL citations have been added, click the printer icon at the top of the page, follow the prompts to include all sources, and select print/export to Google Docs.

Benefits of Using Noodle Tools
- Saves your source citations as you work
- Create works cited lists for multiple projects at one time
- Quick cite feature
- **Perfectly formatted works cited page *every time!***
